Increased rate of pension to
Palyagars during 1893. 50% per annum

Inenco

During the time of His Highness
the late Maha Rajah fresh
grants in money were made
to some other Poligars and the
pensions of the already exist-
ing Poligars were either reduced
or enhanced according to
their merit and rank and
moreover Government appoint-
ments were bestowed upon
some such Poligars as were
qualified to hold.

When the Territory came
under the administration of
of the Commissioner in 1831,
Colonel Briggs considered that,
the reduced circumstances
of the Poligar families, were
scarcely adequate for supporting
themselves even in a very
moderate degree of comfort,
and followed the principles
which long prevailed in the
Country viz- by granting a pension
calculated on the daily
expenses of their prison diet,
or, as stated in another
passage, sufficient to support
the family in the same terms

as they lived in prison. —

In 1834, Colonel W. Harrison the then Commissioner recommended in a letter to the Government of India that, a sum of Pagodas, 1000 may be sanctioned towards the increment of Poligars' pensions on the ground that, the original allowances have dwindled gradually to small sums, owing to ravification in the families, which has reduced them to such a low ebb that, they are quite discouraged and dissatisfied and that, the proposed increase will pacify their disturbed minds and keep up some of the respectable Mussalman families. —

The Government of India drew the Commissioners particular attention to the condition of the pensioned Poligars families, whose allowances were from time to time reduced and many of whom were suffering from the

the utmost distress, and added that, the Governor General would be satisfied if all the just claims of the Class could be satisfied or the Condition rendered comfortable under the sanction of the Government of India, and hence called upon a detailed report on the matter.

In 1834 General M.

Cubbon the then Commissioner accordingly made a report and received sanction for 135,000 Pagodas, which, he utilized partly towards increments to the pensions of the then existing Palagars and partly towards the grant of pensions to fresh claimants. The total no of families then amounted to 18 with a pension of Rupees 1758-13-3 a month.

In the year 1860, of the above 18 families, one on receipt of a pension of Rupees 22-9-7 became extinct and the members of the rest 17, petitioned to the Govt.

Government that, the allowances which they respectively receive being very small they have run into debts & undergone great hardship for decent living and that under the terms of the Proclamation of H. M. the Queen they may be restored to their respective Palyapetts or petty states. The then Commis-
 Ser Mark Lubbock after due Consideration was pleased to grant a general increase to Poligar's pensions at 50 percent. The pension thus amounted to Rupees 2575-6-8 in all.

And again in 1865 one out of the 17 families, of a pension Rupees 33-14-4 became extinct and the rest 16 on petitioning the then Commissioner Mr. L. Bowring under the same terms as above set forth they were again granted an increase @ 25 percent, the aggregate pension then came to Rupees 3187-6-7 per mensem. -

On another occasion when these Poligars Memorialised the Government, pointing out their reduced circumstances they were offered lands for Cultivation on low assessment, but they declined to take up as they had no money to advance to ryots. and as the lands allotted yielded no adequate return.

It would be thus perceived that, there is no definite Rule enacted as regards granting pension to these Poligars but the matter was dealt with according

Memo No 1184

The conditions on which the
pensions were granted &
the terms as to whether they were
hereditary or capable of revision

& on what grounds could be
gathered out from the original
sums if any had existed.
But there is no information
available. The question has
in the absence of such in-
formation to be discussed on
general principles & on by
reference to the practice in
the neighbouring British Pro-
vinces.

Almost all the polygars
were deprived of their salaries
by Hyder or Tipu Sultan,
who gave no stipends or allow-
ances for their maintenance.
After the conquest of Mysore
by the English & the Establis-
hment of the Native Govt.
between Purnya & H. H. the
Polygars appear
to have granted the pension
either as an act of policy
or in order to prevent
disturbances & restore order &
peace or as a mere matter
of generosity. The pensions
were ^{subsequently} found to be
inadequate for the main-
tenance of the polygars families
which must in course of time
have increased and
increased ~~abundantly~~.
The ~~polygars~~ ^{polygars} ~~in the British~~
& ~~in the British~~ ^{in the British} ~~in the British~~

Success

21

and were revised on the
complaints of the natives.
If this precedent be followed,
~~it will be necessary to~~
~~compare the prices of food~~
Russia, we have only to
compare the purchasing
power of the pensions when
they were last increased,
with the current prices
~~and also the comforts & the~~
~~enjoyed by the natives~~
then and raise the
pensions if found
necessary. In doing this,
consideration must be
had ^{increased} for the standard of
comfort & ~~necessaries~~
necessities of life as com-
pared with the same at
the former period.

But on a consideration of the
practice elsewhere & in general
principles, I am of opinion
that it is not right to
increase these pensions

though it may seem rather
harsh to the ^{poor} ~~poor~~ ^{poor} ~~poor~~.

In the Madras Presidency,
the B. Govt have one by one
annexed Pandyas and
Zemindaris paying
stipends to ~~themselves~~
owners and their descend-

ants. These stipends are
gradually reduced on the
death of original holders
and are expected finally
to cease. These pensioners
have a stronger case for
consideration than the
Pandyas. Their ancestors
were deprived of their
possessions by the British
Govt ~~and they are now~~
~~and they are now~~ but the
Mysore Govt did no such
thing. It simply succeeded
in the territories acquired
by the Mahomedan
Govt by force though it be.

And it tried to mitigate
the hardships of the haligens
by granting stipends.

Again in the absence of
of the contrary
exceptional cases, these
haligens must families
must increase in course
of time and if the pen-
sions are the increased
with the multiplication
of their families or as
costly living rises, there
will be no end. Besides
if we allow the haligens
to entertain the notion, that
they & their families will
be protected at the expense
of the state for all time to
come is to demoralize
them completely.

~~I do not recommend~~
~~that the state should~~
~~be bound to make~~
~~provision for these people~~
~~with the object~~ I do not
say that no increase need

he gain on this occasion
 but I would suggest that whatever
 is done, the Polynesians may
 be led to understand that
 they must learn to be
 - come independent of these
 pensions which instead
 of being raised according
 from time to time.
 Their necessities must
 be expected to cease after
 some generations.

Memo.

Serial number 19 on this file is a statement which shows the history of increases and decreases in the Pollegar Pensions since the days of Dewan Purneah.

2 Among the various proposals made for the better administration of the country after its assumption by the British, there was a suggestion to improve the condition of the ^{Pensioners} ~~Pollegars~~ in Mysore. In his letter to the Govt of India no 45 1/2 Colonel Morrison, the then Commr of Mysore, wrote as follows

4 "It would be difficult to describe the distress into which numerous respectable families

① including Pollegars.

" 1000 Country Pagodas a month
 " would remedy these evils;
 " and I know of no measure
 " which would be attended
 " with so much comparative
 " benefit to individuals or
 " more likely to allay the
 " discontent which must
 " prevail under the circum-
 " stances of these families
 " having been at once deprived
 " of their allowances.

" 6 Some of the Pilegar families
 " as above alluded to, are
 " reduced to want; while
 " others have not the means
 " of supporting themselves
 " even in a very moderate
 " degree of comfort. The
 " principle adopted by Col.
 " Briggsⁱⁿ providing for the
 " Jarikeri Pilegars and which
 " is the same that had long
 " prevailed in the country was
 " explained by that officer in his
 " minute of the 2^d of August 1832
 " to be ' a pension calculated
 " on the daily expenses of their

now forthcoming in the
Records. It was described in
Col. Morrison's letter referred
as containing a "recapitulation
"of the results of the Seven
"preceding with a column
"showing the estimated ad-
"ditional Expenditure".

5 The full amount of 1000 C.
Pagodas was not then utilized.
as Sir Mark Lubbock subsequently
proposed to the Govt of India that
all just claims could be
satisfied with 135-13 C. Pagodas
and this sum was ⁺sanctioned
by the Govt of India in their
letter no 724 of 19 Sept 1834.

L 7.4

6 In 1860 Sir Mark Lubbock's
attention was again drawn
to the condition of the
Pillayar Families. In one of
his letters he observed as
follows:-

"The Pillayar families at
"present amount to 17 comprising
"a considerable number of
"individuals, perhaps
upwards of

...the adult males,
...highly
...early to
...indirection
...for an increase
...able to
...and some
...as far as
...restoration
...which
...forefathers
...Proclamation"

7. On a consideration of their
circumstances and the
fluctuations in the prices
of the principal food grains
Ker and Kazi, Sir Mark
Pemberton was pleased to ~~give~~
increase all the Pollegar
Rensions by 50% from 1st April
1860.

8. Again his Successor Mr
d Bowring gave a General
increase of 25% to the Pollegar
stipends, "subject to the
"Condition that those paid
"to female incumbents will
lapse

"lapse on their demise". This took effect from 1st May 1865.

On both these last occasions, the Govt of India were not informed of the matter. Perhaps the general remarks of the Govt of India with regard to the limit of 1000 Gunteroy Pagodas proposed for Morrison quoted in para 3 above was considered general authority.

The following is an abstract of the increases and decreases in the Pilegar stipends since the period of their original grant.

they must procure ryots to cultivate for them - This can only be done on terms just sufficient to secure bare maintenance to the land-lord.

What the Pallegars immediately want is enhanced allowances or stipends to maintain themselves, and to enable them to educate their children properly - Many of them are hopelessly involved; and, in my opinion, increase of their stipends, by cash allowances, would afford ^{real} relief in their straitened circumstances - Such of them as are willing and able to engage in agriculture may be encouraged to take up lands on easy agreement or to apply for commutation of their pensions partly in land & partly in cash as proposed in the Draft order.

Memo

The proposed grant of lands on favorable terms in part commutation of the pensions will afford very little substantial benefit to the Pallegars.

Their present stipends are insufficient even for a bare subsistence. We must give them enough to live decently and comfortably and enough also to educate their children, otherwise we cannot better their condition -

Without capital it is obviously impracticable to make them even petty proprietary cultivators - They cannot compete with hereditary ryots. They are not laborious enough to till the soil themselves, and

To

R. Seshadri Iyer, Esq., C. S. I.

Dewan to His Highness the
Maharajah of Mysore.

THE HUMBLE MEMORIAL
OF THE UNDERSIGNED
PALLEGARS UNDER THE
PROTECTION OF THE
MYSORE GOVERNMENT.

Most Respectfully Sheweth:—

THAT the several territories which were under the rule of the Memorialist's ancestors were usurped by the late Nawab Hyder Ali, and added on to the then State of Mysore, since made over to the late Maharaja Krishna Raja Wadier Bahadur, on the seige of Sreerangapatam, Your Memorialist's ancestors were afterwards sent for and allotted temporary allowances, since termed pensions, pending final settlement of their claims.

II. That when Your Memorialist's ancestors urged about that promised settlement, during the administrations of Dewan Poornia and of His Highness the late Maha Raja Sree Krishna Raja Wadier, the settlement was deferred till such time as the territories would enjoy perfect tranquillity, subsequently, on further representations, Your Memorialist's ancestors were pacified by the grant of an increase to the temporary allowances, provided with suitable houses, favored with pecuniary assistance on occasions of festivals and ceremonies, such as Marriages etc., and were, lastly allowed liberal presents on all state occasions of importance.

III. That owing to frequent changes, in the administration, Your Memorialist's ancestors were not fortunate enough to see their claims disposed of with due justice as promised, on repeated representations, in 1860, the late Sir Mark Cubbon seeing their condition, granted an increase of allowance by 50 per cent, which was again increased by 25 per cent in 1864, by Mr. Bowring.

IV. That notwithstanding the increases granted to Your Memorialist's they could not manage to live according to their prestige owing to the large families maintained by Your Memorialists, the rise in prices of food grains, &c., and were consequently subjected to contract heavy debts, which could not be discharged, nor could they own any property under such circumstances.

V. That Your Memorialists naturally entertained the hope that after the assumption of the Government by His Highness the present Maha Raja Sree Chama Rajendra Wadier Bahadur, their difficulties would end and their special privileges would be restored; and Your Memorialists, on the memorable occasion of His Highness' instalment in 1881, presented a congratulatory address, to which Government was pleased to express that it was His Highness' particular wish to see Your Memorialists circumstances bettered in all respects.

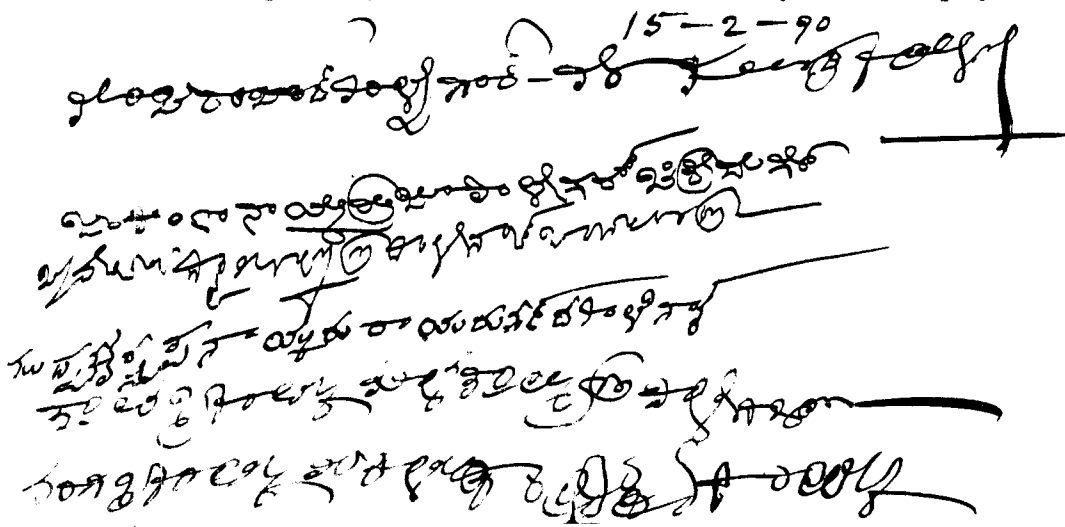

VI. That in realization of the wishes of Government, pensions were continued to such of the Pallegar families as had no progeny, and whose adoptions were unrecognized by the British Government, special Scholarships were granted to their children, enabling them to receive good education, those that qualified themselves were given responsible posts; for all these and several other favors bestowed on them, Your Memorialists beg to convey their deepest feelings of gratitude to His Highness Government.

VII. That as in spite of all the foregoing concessions most of Your Memorialists' families are still in such a dire want of amelioration that they can hardly elevate themselves to any higher status, Your Memorialists beg to solicit Your benevolent attention to the extreme disproportionateness between the considerably small pensions into which the revenues of the territories surrendered by, or conquered from, Your Memorialist's ancestors have been commuted and the liberal shares of the revenues of the Pallipats in British India enjoyed by the Pallegars there, subject to the condition of paying the Pesh Kash fixed by Her Majesty's Government.

VIII. That although Your Memorialists may not claim to be placed on a par with their compeers in British India, they humbly beseech Your honor to favor them with such suitable increase to their pensions as would enable them to live decently and respectably, along with His Highness' subjects, as becomes their position, considering the subsequent increase in their family, the rise in prices &c., and their entire dependence for their support on the Mysore Government. That the Memorialists beg to urge that unless some such concession is shown to them they will never be relieved of their misery and penury and their general advancement of their interests, will hardly be realized.

IX. That Your Memorialists in conclusion humbly pray that Your honor will be pleased not only to show every consideration due at Your hands to the Memorialists but also to submit this to His Highness the Maha Raja, with Your strong support, with a view to their pensions being doubled to their relief, and thereby add to the world wide fame of Your Dewan-ship.

For which act of generosity, Your Memorialists shall as in duty bound ever pray.

studying privately and in various schools of the Province English or Canarese, & scholarship applications have been received on behalf of most of them. Eleven are already in receipt of scholarships amounting to 54 Rs as detailed in the margin. A few have declined to apply for the indentures on the score that the rates fixed are inadequate to be solely relied upon for the purpose while their income is too small to bear any contribution. The following are the most successful students of these Patlegar families.

Komarsawmy Naik of Bangalore has passed his B.A.

The Chief Secretary
to the Duran of Mysore

Sir,

I have the honor to
acknowledge the receipt of your
letter No 6612 dated the 8th Inst^t
and to respectfully submit for
information of the Acting Duran
the following replies to the
queries contained in your letter
under reference and transcribe
in the margin.

The Pallegar families enjoying
Mysore State stipends are 16 in
number and comprise 2 pensioners.

1st How many Pallegars are on Rs. 3143-10-9 per mensem.
How are prosecuting
their studies in Boys of School going ages amongst
schools and what
scholarships if any there are 70. Forty five boys or so
do they get?

Baswarajin of Aungoondi is studying for the F. A.

Half a dozen boys or so are studying in the matric and pre-matric classes, while of the remaining some are in the lower classes and the others only propose to soon join the Schools.

Could not some of them be induced to take up Beechirakkh Villages or Shrayaw & other favourable terms

Very few if any of these stepar = diaries can be induced to take up Beechirakkh Villages or Shrayaw or other favourable terms, and the reason therefor is obvious.

Without capital, industry, and application such undertakings must certainly collapse, and more so in the present days when the price of labor has risen so high and the securing of the same has

has become so uncertain. The
Pollygar pensionaries may be said
to be entirely dependent on their pensions
which is hardly enough to meet
the necessities of life of their large
families. Mysore in particular
is in my opinion, at a greater dis-
advantage as regards farm labourers
and tenants than most of the sister
provincial countries where exist
certain classes of people whose sole
occupation is agriculture and who
are entirely dependent on land
owners. In Mysore no such distinct
class ^{of people} is available. The coffee planta-
tion, the Railway extensions, mills,
various other industries give the
labourers more profitable employ-
ment than such farming ^{business} and hence a
man of ordinary means is ⁱⁿ prohibited
from

from turning to cultivation of lands as a source of income, unless she can afford to personally carry on the pursuit ~~on the~~ when occasion needs it. The Pallegars have still fresh in their memories their once elevated position in the country and they cannot descend to such occupations more so in places where their previous history is so well known.

Further they have had no training in this direction and most of them even to this day are so ignorantly proud of empty titles and ceremonies that they attach very great importance towards the observance of the same.

With such prejudices & disadvantages it is my humble opinion that conceptions in this direction will if at all go only a very small way to ameliorate their condition. I am also informed that the late Chief Comr

Commissioners, and the Mungachars
announced this scheme but none
had availed of the same. Most of
these Pollegar families own Kandayam
lands in their village which has
been self acquired hereditary
and must be quite content with what
they already hold.

To the best of my information
the Chitaldroog Pollegar family
hold Kandayam lands in Chitaldroog
Taldari and Hosdroog Bangalore
Talukhs of about Rs 150. The Moolka-
mura family pay between
Rs 200 to 300 Kandayam to Moolkalumura
and Chellahere Talukhs

 Ankal Rs 150. Ankal Talook.
 Davanahully family Rs 50. :-

 family Rs 50. Chintamani Taluk.

How many are
 employed in the
 Post-Service and
 how many in trade
 and other occupations

There is only but one
 Komaraswamy Naik B.A. of the
 Rayachoddy Pollegar family who
 is in Government employ as :-
 Amildar of Gubbi Talook. Venkatri
 Naik of Mangarabad family was
 Talook Sheristadar but I understand
 he was since compelled to resign
 the same. Krishnarao of Anigoudy
 family is a Police Sergeant on Rs 100.
 at Bangalore. Unless the scale of
 scholarship and the conditions of
 granting the same are revised on

on liberal scale very few of the
present Paltiga boys will reap
the benefit thereof and they can
hope for no share of Government
employment unless they are for at
least a time exempted from the
restrictions of the examination rule.
